

## ADDENDUM 1

### RFP –The TMA Group for Franklin Transit Authority 12 + 2 BUS PROCUREMENT

Notice to all potential respondents:

The Request for Proposals (RFP) is modified as set forth in this Addendum. The original RFP documents remain in full force and effect, except as modified by this Addendum, which is hereby made part of the RFP. Respondents shall take this Addendum into consideration when preparing and submitting their proposals. The proposal submittal deadline remains the same and is not changed by this Addendum.

**Q1: Do you have a chassis specification?**

A1: Franklin Transit does not have a recommended chassis.

**Q2: Please specify if you want white or amber LED displays.**

A2: Amber

**Q3: Please specify that the side sign MUST have the taller window as normally required for the sign installation and is not merely installed behind the standard T-Slider window.**

A3: Both sign installation methods will be considered as eligible. Please clarify if the vehicle is equipped with factory installed, taller than standard side window, or if the sign is attached to or hung from the frame of a standard window.

**Q4: Please clarify that you desire a total rating of 70k btu or that the rear AC be 70k btu standalone not including the dash AC**

A4: Total rating for the vehicle of 70k BTU

**Q5: "14.1 SECTION 4.10—EXTERIOR FEATURES\*\*\*Suspension: Side struts": Please clarify what this is.**

A5: Side Struts is referring to the struts that support the vehicle's suspension and manage the side load placed on it. Placing this component in the Exterior Feature was confusing on our part.

**Q6: "FLOORING: Plywood subfloor:" Unless specified otherwise, this is just standard untreated plywood. We recommend Marine grade plywood. Please clarify that standard plywood is all that is desired or specify another preference. FYI, Marine grade is available in either 5/8" or 3/4" thickness.**

A6: We desire marine-grade plywood with a minimum of 5/8" thickness.

**Q7: Do you require grab handles on ALL seats or just the aisle seats?**

A7: Aisle seats only

**Q8: Are you asking for installation only of your supplied camera system? Or for complete installation with hardware?**

A8: Installation only. Franklin Transit currently has the Seon camera system.

**Q9: Do you desire interior and exterior cameras? Please specify how many interior and how many exterior.**

A9: All cameras are interior. There are three total: one forward view (drivers view); one view from the front of vehicle capturing driver and passengers; and one in the rear of the bus capturing wheel chair area and interior rear section of vehicle.

Date of Addendum: October 2, 2025
